

We want to reach as many people as we can and encourage those with an interest in the project to register for updates. We are asking for your help with this and below is a link for you to share the new e-newsletter through your community and social network feeds.

You can do this by uploading the attached thumbnail, accompanied by this link: <http://subscribers.nationalgrid.co.uk/t/d-00CFCE0CD52218CD2540EF23F30FEDED>

We're looking at ways to develop the digital format to make it easier to share before we send out our next update.

We hope you liked the new e-newsletter. We aimed to keep it simple and catchy – focussing on the stories that matter most to our local communities. We welcome your feedback and comments.

With best wishes

Community Relations Team
